About Zomato

Zomato is a restaurant search and discovery platform – offering a variety of services to users including table reservations, editorial content, its subscription-based dining program Zomato Gold, while providing in-depth information for over 1.4 million restaurants across 24 countries.

Zomato's core content features include restaurant information such as scanned menus and photos, sourced by its massive feet-on-street team across cities it is present globally. Users can rate and review restaurants, as well as create their own personal network of foodies for trusted recommendations.

For more updates on Zomato, please visit [our website](#), or follow us on [Facebook](#) and [Instagram](#).

If you're a business owner interested in teaming up with Zomato for takeaway purposes, please register your interest [here](#).

About **zomato** *takeaway*

In response to COVID-19, our tech team has built a fully functional in-app ordering platform that enables **ALL VENUES ON ZOMATO** to offer takeaway via the Zomato app.

This means that for the 500,000 Zomato users in Auckland, online ordering and payments is about to be at their fingertips.

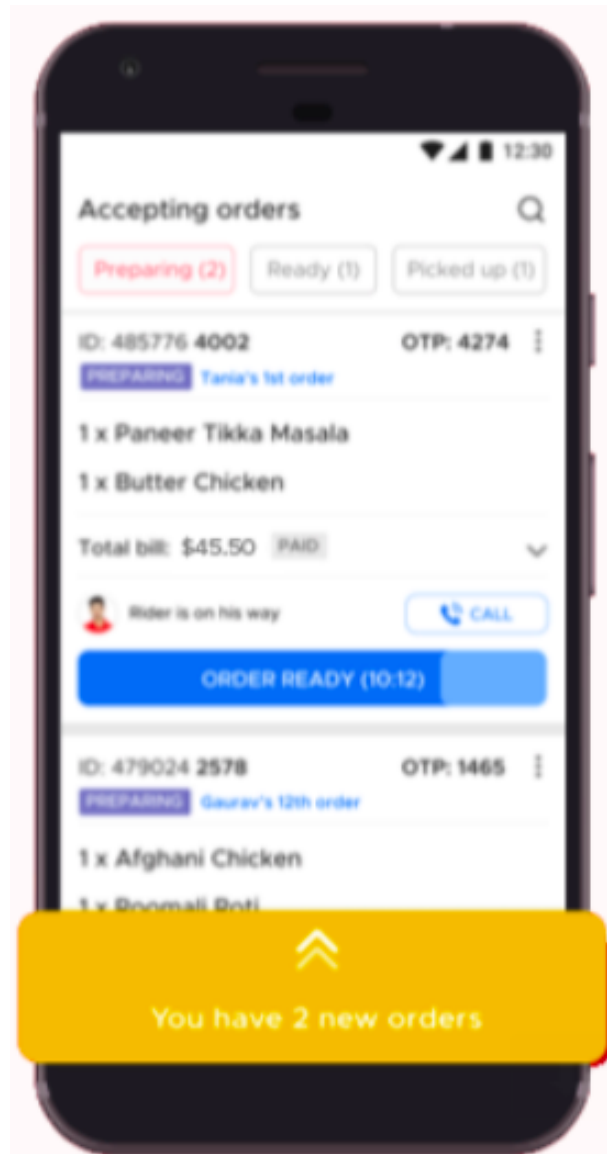

We know how important convenience is for our users and with contactless payments becoming the new normal - if you are able, now is the time to launch Zomato Takeaway for your business.
